

TELECOMMUNICATIONS TECHNICIAN, Sacramento County is currently accepting applications. Salary \$4885.92 - \$6,530.25/month.

Incumbents in this class install, maintain, and repair typical telecommunications equipment including VHF/UHF/800 MHz two-way radios, stations, simulcast trunked radio systems and paging equipment, except that Level I incumbents work under close supervision on specialized equipment and systems (including microwave) utilized in Sacramento County until proficiency is achieved.

Minimum Qualifications:

Possession of a valid General Radio-Telephone Operator's License issued by the Federal Communications Commission.

And:

Three (3) years of full-time paid experience, within the last five (5) years, in installation, maintenance, and repair of telecommunications equipment consisting of VHF/UHF/800 MHz two-way radios; simulcast trunked radio systems; portable and mobile radios; base, control, and repeater stations; and paging equipment.

Education Substitution: Education or training in electrical technology, electrical engineering, electronics, communications technology, or a field that is directly related to the knowledge and abilities may be substituted for one (1) year of the required general experience.
