September 10, 2020

Agenda

- COVID 19 Impacts
- Current CPE Software Upgrades for NG 9-1-1
- Next Gen 9-1-1 Update
- NG 9-1-1 Migration Plan
- Cloud Based CPE
- Outage Reporting
- AB 911 Feasibility Study Update
- Questions

COVID-19 Impacts

1. PSAP staffing levels
2. Access to PSAPs
 - I. Circuit installs
 - II. PSAP remediation
 - III. Equipment installs
3. Technician availability
4. Supply chain impacts
5. Limits ability to gather feedback and input on NG 9-1-1
6. Taskforce and PSAP meetings
7. Uncertainty and planning considerations

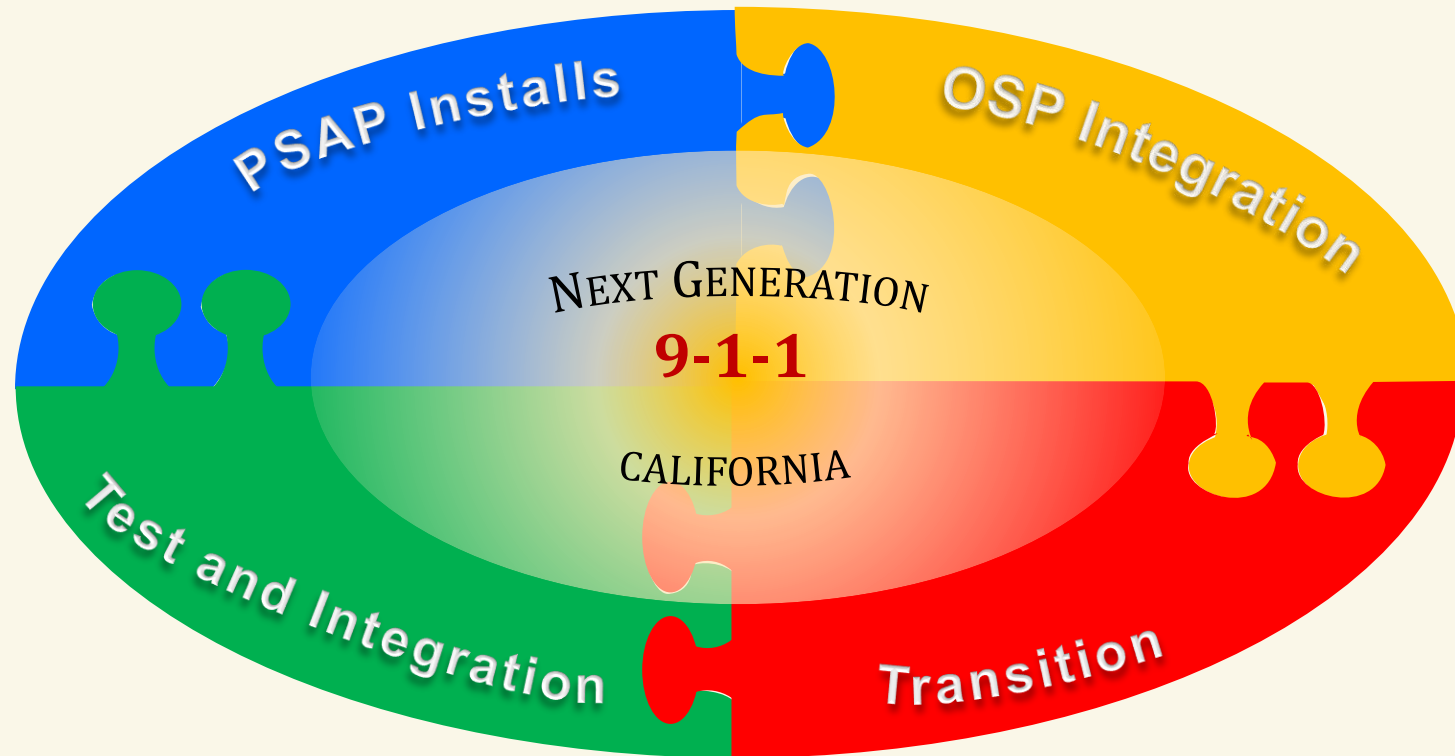

CPE software upgrades for NG9-1-1

- Upgrades are required for current CPE to connect NG9-1-1 network
 - Local CPE technician to perform upgrade at no cost to State and PSAP
 - Could include SW version, router, firewall
- All Vesta CPE installs are on hold pending clearance in the lab
 - Validated software / hardware needed to support NENA i3 requirement

Next Gen 9-1-1 Migration 9-1-1 Call Routing Today

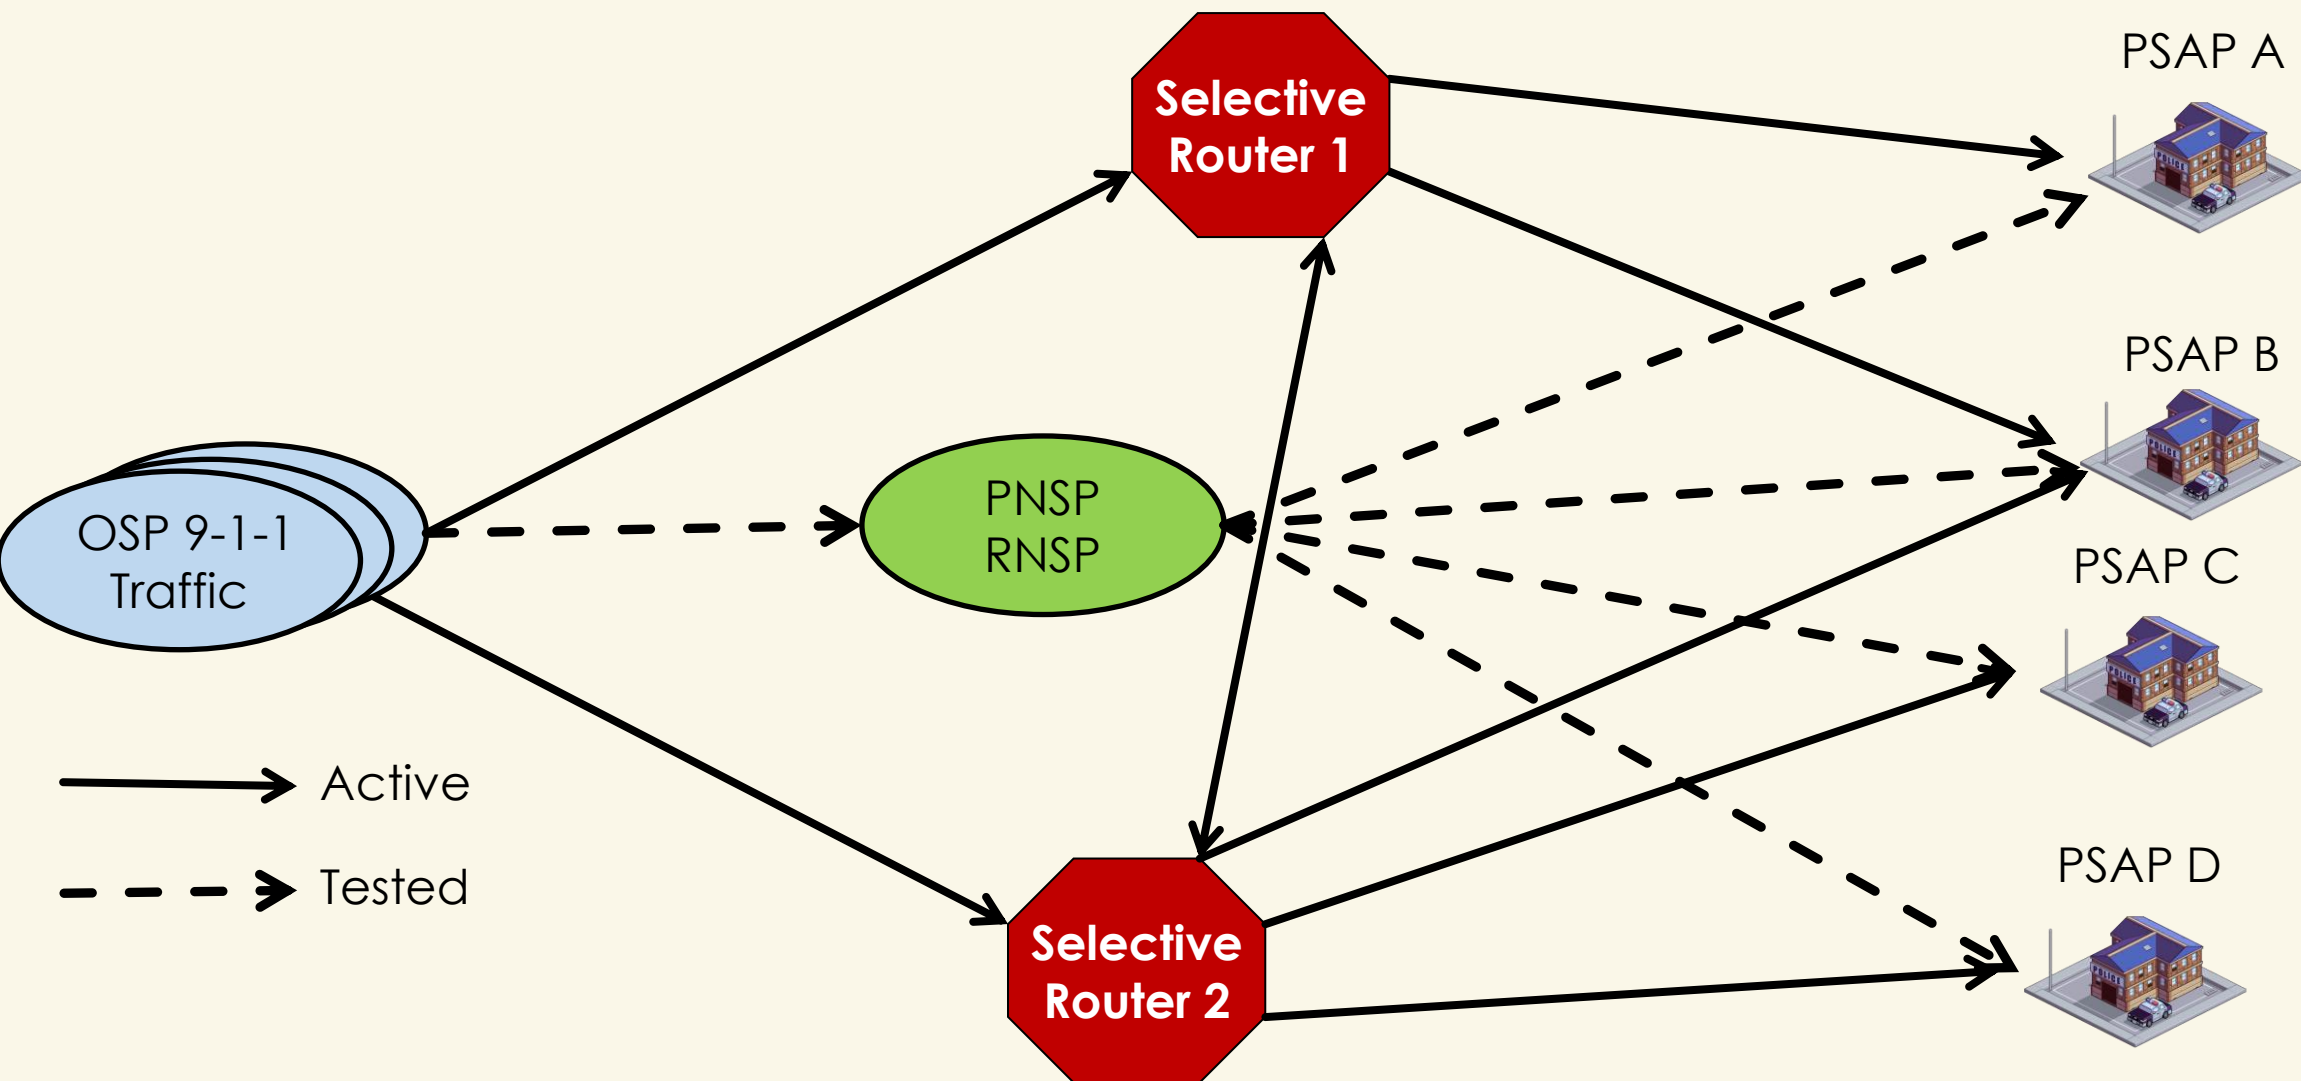

Next Gen 9-1-1 Validating Migration Plan

1. OSP cannot determine which PSAP a call should be routed to
2. Because #1 is true, OSP can only direct traffic to either a selective router or to an NGCS provider – (without additional circuits)
3. All CPE can receive i3 traffic either via SIP or via LPG
4. CPE has ability to support CAMA trunks for LPG
5. CPE can connect via CAMA and IP or i3 at the same time
6. Verify CPE has the ability to support numbers 1-5
7. NG 9-1-1 cutover will be coordinated by selective router

S B 670 Outage Reporting

- Staff on call 24/7/365 CA911outages@caloes.ca.gov
- Approved regulations are posted on Cal OES website
 - www.caloes.ca.gov/sb670
- Cal OES is notified via email when:
 - 100 or more users in single ZIP Code or 50% if under 100 per ZIP Code have an outage (Wireline and VoIP)
 - 50% or more coverage degradation in an ZIP Code (Wireless)
- Data is made available to PSAP, Sheriff and Emergency Managers

AB 911 Feasibility Study

- Determine the feasibility of a database that can be used by all Californians, including older adults, individuals with disabilities, and other at-risk persons to voluntarily provide vital health and safety information.
- Integrate the data with existing 911 CPE, NG911, CAD, and RMS at each Public Safety Answering Point.
- Establish a rough order of magnitude estimate of cost to support the statewide system.
- 911 Authority has received 302 survey responses
- Draft Report will be sent to the LRPC in October and to the 9-1-1 Advisory Board in November
- Final report due to legislature January 1, 2021
