Inaugural California FirstNet User Group RoundTable Meeting Held in Sacramento

The Inaugural California FirstNet User Group RoundTable Meeting was held in Sacramento, CA, on September 7, 2023. The meeting was hosted by the California Department of Transportation (CalTrans) and led by FirstNet Authority Public Safety Advisory Committee (PSAC) member Ferdinand Milanés. Over 30 public safety stakeholders from 10 state and local agencies traveled to Sacramento to participate in a 3-hour meeting to share experiences, needs, and how to move forward with the Nationwide Public Safety Broadband Network. AT&T along with FirstNet Authority staff attended and participated in the discussion to learn more about their needs regarding expanded macro, in-building, aviation, and maritime coverage, LMR to push-to-talk experiences, potential site sharing opportunities and many others. The Roundtable was successful with another planned to be scheduled in San Diego, CA in January 2024. The overall goal is to meet quarterly, or as needed in Northern and Southern California to meet public safety's needs.
