[Most Maui Cell Sites Still Out While Carriers Work to Restore Service](#)

08.13.2023 | (Inside Towers)

As part of public safety's FirstNet fleet, AT&T has deployable network assets year-round in Hawaii. A portable FirstNet cell site is providing first responders in Lahaina with dedicated connectivity on Band 14, according to President of FirstNet® at AT&T Jim Bugel. "FirstNet and AT&T team members are onsite and coordinating with local, state and federal agencies to deploy additional network equipment," he says in a blog.

[Carriers deploy network support, recovery amid Hawaiian wildfires](#)

08.11.2023 | (RCR Wireless News)

AT&T said Friday that its Network Disaster Recovery Team and FirstNet Response Operations Group has put up a Band 14 portable cell site in Lahaina and that it has AT&T employees on the ground, with more people, network equipment and FirstNet-capable devices on the way.

[Caliber Public Safety and AT&T Pledge Continued Collaboration for a Faster, Smarter, Safer Future at the 2023 International APCO Conference](#)

08.14.2023 | (news.websitegear.com)

Join us at the upcoming 2023 International APCO Conference from August 6-9, 2023, at the Music City Center in Nashville, TN. Mike Guerra, Director - NextGen 9-1-1 Products, AT&T said, "Our ongoing work with Caliber Public Safety focuses on the critical interface between NextGen 9-1-1 dispatchers and first responders on FirstNet, delivered via cloud-centric solutions and applications for CAD and RMS/JMS used by both parties, for faster response with better situational awareness that improve decision making during any managed emergency incident."
