ABOUT US

Founded in 1964 in Saint-Jean-sur-Richelieu, Quebec, Canada.

Joining the team few years later, the Rozon brothers, Luc and Paul, seize the opportunity and present themselves through innovation by inventing the breakthrough portable battery boosting system known as Booster PAC® (US Patent number's 5,589,292 & 5,993,983).

TCED has become the undisputed leader in its category in eastern Canada.

Operating from our brand-new 37,000 square foot eco-friendly head office, we count 65 members in TCED's team constantly dedicated to deliver to you, the most effective technology for your various energy market needs.

Offering a variety of "clean and green" alternative battery products for about every industrial, commercial and consumer use. Our product portfolio includes small and large appliance and equipment batteries, computers, PDA and cellphone/smartphone batteries, automotive, ATV, RV and motorcycle batteries and accessories, and, of course, solar and wind-powered products. If you need a product, we source it for you!

We promote and encourage energy efficiency, conservation and recycling through our business practices.

ALTERNATIVE ENERGIES

With energy costs on the rise, alternative solutions are the future. We bring 20 years of experience and knowledge in solar panel systems and offer reliable products that are known in the industry for their quality and value. With technology in constant evolution, we are a green energy supplier that delivers awareness!

LED LIGHT BULBS

SOLAR REGULATORS

COMMUNICATION TOWER BATTERIES

Wireless communication is an expanding market that keeps pushing the limit of how people interact with each other. New technology requires powerful communication and TCED acknowledges the need to provide strong product lines you can rely on.

LMR BATTERIES

CUSTOM LABELLING AVAILABLE

We also supply most of the two-way batteries on the market today. If we don't have it in stock, we will source it for you! At TCED, we take great pride in exceeding our customers' increasing needs and expectations.
